Wes,

Can you or Steve send us a copy of what you sent to Janet in case we get any questions at the upcoming SLA meeting. Thanks

Craig Carroll
Chief, Pesticide Section
U.S. EPA, Region 6

Subject: EPA OEM info needed today!

We are in need of knowing all of the agencies that would need to be contacted if someone were to start a fertilizer business handling AN. TDA Commissioner is addressing an audience **today** and needs to have this answer.

Since TDA is not the expert in this area and it doesn't look like the Feed and Fertilizer control service has a comprehensive list of agencies either, I am hoping you can help me out.

So far, I have:

State:

TX Feed and Fertilizer Control Service: Register the facility, register products, recordkeeping.
Local Fire Marshal: Provide list of chemicals on site upon request.

Federal:

EPA: OEM: Tier I or Tier II reporting for petroleum products above ground storage
DHS: Register facility, register purchasers of AN, background checks, recordkeeping (did this proposed rule ever go final?)

I know there is more but I am searching for information. There is no one stop shop for this type of info that I can find. If there is anything you can add to this, PLEASE DO! I want this as accurate as possible.

Thank you so much.
